

Alien Abduction Procedure

Process of acquisition

Stalking prey (human subject). UFO is Observed pacing car. Psychological control: A person is then instructed to drive off to a remote road.

Coordinated effort:

A group of aliens approach human subject. Leader stays aboard craft.

Acquisition/ subdue

Psychological control at close range: The human subject goes from feeling fear to calm when the aliens approach. A person in bed becomes conscious surrounded by aliens and feels paralysis.

Actual Abduction

A human subject is floated or levitated by a beam, carried or escorted to craft (ascent) by alien group, or agrees to go with aliens under own recognizance.

Onboard Craft

The human subject taken down a long winding hallway to dome room or curved wall room that fits the shape of a domed saucer. Then stripped naked. Sometimes other human subjects are observed. Undergoes a procedures.

Procedures Onboard Craft

- Physical Examination.
- Samples Taken (Skin, Sperm, Ovum).
- A woman is impregnated and human fetus taken at a later abduction.
- Implants inserted.
- Human subject interaction with hybrids (babies, children).

Aliens Onboard Craft

One type to multiple types of aliens as well as hybrids are observed. Sometimes a hierarchy is observed with taller leaders and shorter helper aliens performing task. Alien interaction with human subject is limited.

Subject returned (natural habitat)

Forced amnesia: is told by aliens details of abduction procedures will not be remembered.
The human subject describes going back down long winding hallway.
Descent, floating toward ground.
Returned to his or her place of abduction.
Aliens and UFO departs.

Post Abduction Effects

The human subject may notice missing time.
Oddly or sloppily dressed when returned.
The human subject feels violated or dirty.
The human subject feels fatigue, sickness, or psychologically disturbed.
The human subject has nightmares of suppressed events.
Nose bleeds, bruises, scars, scoop marks are observed.
May remember UFO approaching or departing (acquisition phase) but have trouble remembering (missing time) events (actual abduction).
May have a screen memory (the image of an owl or deer) to mask the aliens or events.
